In this Process Street Fire Inspection Checklist, we cover how to run a fire safety inspection on a residential or commercial building.. This inspection should be run annually at least. The more regular the checks, the higher the levels of safety provided. Throughout the checklist, there will be sub checklists for each section to explore a more detailed assessment of the areas.

Fire Inspection Checklist | Process Street

Inspect the Webbing. The web body of the harness should be inspected daily. Bend all web surfaces, a section at a time, and look for damage. Any cuts, broken fibers or frayed edges will show themselves on close inspection, and each of these will compromise your protection.
