Taking a Computer Exam - American Board of Surgery
In 2012, the ABS announced changes to its admissibility requirements for initial certification in general surgery and vascular surgery. This was done in accordance with a new statute of the American Board of Medical Specialties (ABMS) that limits the period an individual may be eligible for initial certification to no more than 7 years following completion of training in the specialty.

Screening for thoracic aortic aneurysms. Conditions that cause a thoracic aortic aneurysm may run in families. Because of this, your doctor may recommend you have tests to check for thoracic aortic conditions if a first-degree relative, such as a parent, sibling, son or daughter, has Marfan syndrome or another condition that could cause a thoracic aortic aneurysm.
